It is seen that the area of Kansas is nincteen thousand square miles greater than that of all New England, New York, and New Jorsey; and that the area of Nebraaks is ninety-five thousand miles greater than that of all the non slaveholding states except California. Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio, and Indiana. It is possible that New Mexico and Mesilla will be embraced in one territorial organization by Congress at the present session, containing 288,000 square miles—exceeding all New England, New York, Pennsylvania, Ohio, Indiana, and Illinois, Washington exceeds in extent all New England and New York.
